Product Development

Pricing & Market Insights

- Daily global market data via AI platform
- Pricing benchmarks for stronger negotiations
- Optimized costs, protected margins

Vendor Selection & Quality

- Shortlist top vendors by price, capacity, reliability
- On-the-ground support during factory visits
- Upfront joint specs review with buyers
- Dedicated QA teams ensure strict compliance

For Retailers

- Suppliers with GHG inventory & decarb plans
- Scope 3 data for CSRD, SBTi, IFRS S2
- Lower compliance & reputational risk

For Suppliers

- Audited carbon accounting software
- GHG inventories & decarb roadmaps
- Meet retailer ESG requirements

Weekly Alignment

- Track order status, ETA/ETD, capacity
- Proactive coordination prevents bottlenecks

Real-Time Alerts

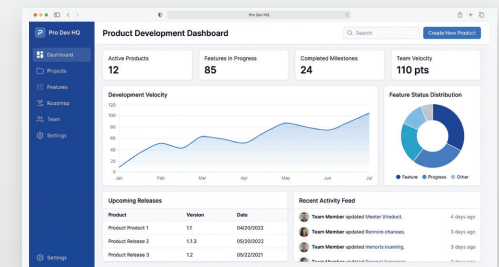

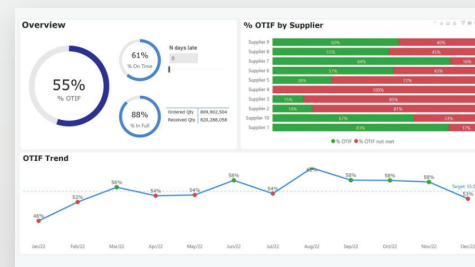

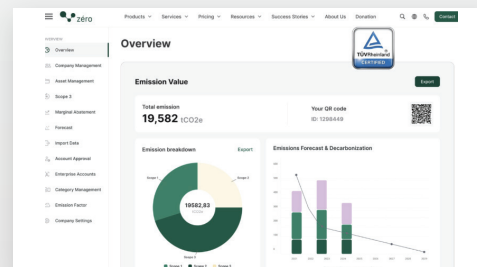

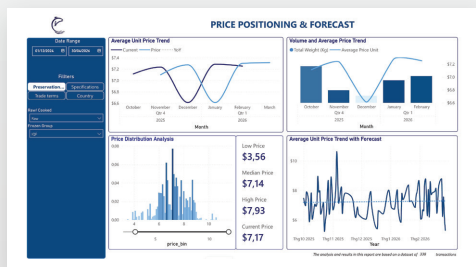

- Email alerts for specs or time deviations
- Early warnings for temperature breaches
- Automated records for dispute evidence

Insights & R&D Network

- Category trends & buyer demand signals
- Flexible factories for trials & pilot runs
- Access to raw materials & semi-finished products

Co-Investment & Scale-Up

- Shared cost & risk in product testing
- Shorter sampling cycles
- Smooth trial-to-mass production transition
